San Francisco, CA [LinkedIn](#)

PROFESSIONAL SUMMARY

Experienced Java Developer with 5+ years of building scalable backend systems and microservices. Proficient in Spring Boot, REST APIs, and cloud-native architectures. Passionate about delivering high-quality, testable code that drives business outcomes.

EXPERIENCE

Senior Java Developer

2022 - Present

NexGen Solutions

- Led migration of monolithic app to microservices using Spring Boot, reducing deployment time by 40%
- Designed and implemented RESTful APIs handling 10K+ requests per second with 99.9% uptime
- Mentored 3 junior developers, improving team velocity by 25%
- Integrated CI/CD pipeline with Jenkins and Docker, cutting release cycle from 2 weeks to 3 days

Java Developer

2019 - 2022

DataStream Inc.

- Built real-time data processing pipeline using Apache Kafka and Spring Cloud Stream, processing 500K events/day
- Optimized SQL queries and introduced caching with Redis, reducing database load by 60%
- Developed unit and integration tests with JUnit and Mockito, achieving 90% code coverage
- Collaborated with product team to define API contracts and delivered 15+ features on schedule

SKILLS

Core Skills: Java, Spring Boot, Spring Cloud, Hibernate, REST APIs, Microservices, Docker, Kubernetes, Jenkins, Git, PostgreSQL, MongoDB, Kafka, AWS

EDUCATION

B.S. in Computer Science

2018

University of California, Berkeley
