PROFESSIONAL SUMMARY

Experienced software engineer with 5+ years building scalable web applications. Proficient in full-stack development, cloud infrastructure, and agile methodologies. Passionate about delivering high-quality code and driving team productivity.

EXPERIENCE

Senior Software Engineer

2022 - Present

TechNova Inc.

- Led a team of 4 engineers to redesign the core microservices architecture, reducing API response times by 35%.
- Implemented CI/CD pipelines using GitHub Actions and AWS CodeDeploy, decreasing deployment time from 2 hours to 15 minutes.
- Mentored 3 junior developers through code reviews and pair programming, improving team velocity by 20%.
- Developed a real-time data processing pipeline handling 1M+ events per day using Kafka and AWS Lambda.

Software Engineer

2019 - 2022

ByteWorks LLC

- Built RESTful APIs with Node.js and Express serving 50K+ daily active users, maintaining 99.9% uptime.
- Optimized database queries and indexing strategies, reducing average query latency by 40%.
- Integrated third-party payment gateways (Stripe, PayPal) for an e-commerce platform processing \$2M monthly.
- Developed automated unit and integration tests using Jest and Mocha, achieving 90% code coverage.
- Collaborated with cross-functional teams to launch 3 major features on schedule.

SKILLS

Core Skills: JavaScript/TypeScript, React, Node.js, Python, AWS (Lambda, EC2, S3), Docker/Kubernetes, PostgreSQL, MongoDB, GraphQL, CI/CD, Agile/Scrum, Git

EDUCATION

B.S. Computer Science

2018

University of California, Berkeley
